As one of the fastest growing communities in Colorado, Frederick is working hard to ensure smart growth that results in a cohesive community while preserving the small-town feel and rich heritage its residents have come to enjoy. At the center of this effort is Downtown Frederick, which has always been and will continue to be the main community gathering place. Crist Park stands as the entrance to Downtown Frederick and our town's heritage, with artwork and a museum paying homage to our mining history and a new splash pad and gazebo to entertain guests to the downtown area. With a combination of unique businesses (have you ever seen a scuba/barber shop?), friendly business owners (ask Dustan and Deb about roasting coffee beans!), and an upgraded look and feel including new banners, trash cans, benches and flower pots, Downtown Frederick is poised to provide a comfortable and inviting backdrop to get to know your neighbors for many years to come. Come on down and join us!
